

REPRODUCTION ENTERPRISES INC.

MIXED PRACTICE VETERINARIAN

Reproduction Enterprises Inc. (REI) (REI) is a growing reproduction service center located in Stillwater, OK. REI has been involved in semen collection and processing since 1978 and has been a member of National Association of Animal Breeders (NAAB) for several years. REI has maintained (CSS) certification status with NAAB since 1982. Semen processing and freezing has expanded to not only include bovine but also caprine, equine, white tail deer and more recently canine. In 1980 REI began embryo transfer services in cattle. REI has operated as a certified facility for over 15 years with the American Embryo Transfer Association (AETA). REI desires to expand their female reproductive services, to include many of the same species in which we are cryogenically preserving semen.

Requirements

- Doctor of Veterinary Medicine degree, USDA Accredited
- Licensed in Oklahoma, and ability to acquire KS, MO, AR, TX
- Valid driver's license
- Passion for animal reproduction and strong desire to learn new skills
